

Foodsped is born -ready for the future

Tradition does not mean storing ashes, but keeping a flame alive.

In **1947**, Kommerzialrat Felix Troll, the pioneer in the transport of liquid food, founded the company of the same name.

Ulf Schmid joined the company in **2003** and has now grown in 17 years to become one of the leading specialists in the transport of liquid foods. Since **2007** together with the Wemmers Group.

Until his death, Kommerzialrat Felix Troll was proud that his life's work thus lived on and was put on a future-proof footing.

The bond and mutual appreciation between the two entrepreneurial families Troll and Schmid was honoured by the granting of naming rights by the wife Annemarie Troll.

In **2021**, the course will be set for the future. Due to different orientations, the Schmid family is leaving the company.

As the former company is already named Felix Troll and due to the internationality of food transports, the Schmid family will start its activities under the name **Foodsped**.

The Schmid family has promised Kommerzialrat Felix Troll to keep his name in honour and therefore the long tradition, the culture as well as the values of the founding generation will continue to be lived under the new name.

Of course, we continue to stand for quality, flexibility, reliability and innovation in liquid food transportation.

Let's start the future
